Professor Matsubara, Osamu
President
Japanese International Academy of Pathology

Dear President Matsubara

17 March 2011

On behalf of the Korean Society of Pathologists, we would like to express our heart-felt condolence on Japanese victims due to unprecedented catastrophic earthquakes in the north-eastern part of Japan. Until now, many Korean pathologists have developed close relationships and deepened friendships with members of the Japanese Society of Pathology through various academic meetings. At this juncture, our society wishes to pray that not only those Japanese friends but also other pathologists will be safe. We also wish to pray for those who were affected by the disaster will be recuperated as soon as possible.

Despite this natural calamity, we also wish that the 100th anniversary meeting of founding the Japanese Society of Pathology in Yokohama and other several Korean-Japanese Joint meetings in this year will be successfully held as scheduled.

Finally we are sending this message in the hope that the members of the Japanese Society of Pathology will be morally encouraged without losing hope at crisis. If you have anything to ask our favour, please do not hesitate. We will do our best within our capacity.

Sincerely yours,

Jin Hee Sohn, M.D.
Director General
The Korean Society of Pathologists
